REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed to an information communications method and apparatus. Each independent claim identifies the uniquely distinct feature, "for an image information cutout section that cuts out character recognition image information from the image information, the character recognition image information corresponding to an area with respect to which the character recognition is performed and a recognition result generation section that generates recognition result information which is composed of the character recognition result information and the character recognition image information". The closest prior art, Huang et al. (USPN 5,809,166), disclose wherein an optical character recognition system cuts between touching characters, wherein a first cut is made between touching characters based on white spaces and the cut characters are subjected to character recognition processing, all characters not recognized are then cut again; while Bernhardt et al. (USPN 4,449,239), disclose a method and circuit for segmentation of

characters from a serially-read character sequence scans the character sequence in a column-by-column format and intermediately stores portions or cut-outs of the scanned characters in the form of an image pattern matrix associated with each portion; while Xiaomang et al. (USPN 6,289,123 B1), disclose wherein obtaining an image of a specific region and applying a Laplacian operation to the obtained image, while binarizing an image resulting from the Laplacian operation and separating and cutting a character on a character-by-character basis based on the binarized image, either singularly or in combination, fail to anticipate or render the above underlined limitation obvious.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
